MICRO FIBER

MIMIRU 100% MICRO FIBER

It is ultra-fine new material made of fabric and cotton which are finely woven to prevent everyday house dust mites from infiltrating.

MICROFIBER FABRIC

Washability better than cotton and prevention of harmful bacteria

SUPERIOR RESILIENCE

Excellent feeling of softness like duck down

SUPERIOR INSULATION

Superior insulation by interlocking of microfiber

BLOCKING OUT HOUSE DUST MITES

Perfectly prevent from house dust mites with validated FITI authentication

SAFE + COMFORTABLE

Not only is it smooth, like silk, but it also has good durability and has an excellent temperature and resilience to provide a comfortable sleeping environment.

Safer and more comfortable microfiber into pillow

It's high quality goose fur-like texture and warm microfiber cotton make it easier to sleep with excellent antimicrobial properties and excellent thermal and resilience

Microfiber inner cover

Microfiber cotton
